**Subject:** Diesel Testing Plans  
**Attachments:** Diesel Testing.docx

I have made an attempt to lay-out a very rough test plan for the diesel testing. I emphasize this is very rough, but I hope it can be a starting point for discussion of what testing is important, what type of information we still need, and a sense of priority. I briefly spoke to Byron this morning about our testing and he agreed that we probably need to answer some questions about the Ram based on the claims made by FCA. I will try to schedule a meeting for this afternoon for us to discuss in more detail. Please make as many edits as you feel necessary.
